EcoStep: Smart Footstep Energy Monitoring System

Energy Generation Report

Reporting Period:
October 11, 2026

Generated On:
October 11, 2026 at 02:35 AM

Report ID:
ECO-EG-20261011-302066

Generated By:
Apple

1. Report Summary

Reporting Period: 1 days
Total Records: 27

2. Energy Generation Overview

Metric	Value	Unit
Total Energy Generated	0.350	kWh
Average Power	0.00	W
Peak Power	0.00	W

3. Electrical Measurements

Voltage and current measurements from piezoelectric sensors:

Measurement	Average	Peak
Voltage	N/A	N/A
Current	N/A	N/A

4. Report Notes

This report contains actual system data from EcoStep piezoelectric sensors. All measurements are derived from real hardware readings stored in the system database.

For authorized system use and research documentation.
